EDUCATION

1. Purpose of report and executive summary

1.1 The purpose of this report is to provide a summary update to the ACE Committee on schools' current Ofsted status. It includes the judgements following inspections of schools in Reading this term where the report has been published.

2.0 RECOMMENDED ACTION

- 2.1 That the report be noted.
- 2.2 That a further report be submitted to ACE Committee in the spring term 2018, setting out the validated attainment and progress of pupils, including disadvantaged groups, at the end of their 2017 key stage assessments and examinations, and any changes in Ofsted gradings of schools at that time.

3. Policy context

3.1 The local authority (LA) has a legal duty under the section 13a of the Education Act, 1996, as amended by section 5 of the School Standards and Framework Act, 1998, to:

"ensure that their functions relating to the provision of education to which this section applies are (so far as they are capable of being so exercised) exercised by the authority with a view to promoting high standards."

- 3.2 The LA has further duties under the Education and Inspections Act, 2006, to "intervene where a school is 'of concern'", although this does not apply to academies or free schools where the responsibility lies with the Regional Schools Commissioner (RSC).
- 3.3 'Intervention' includes issuing warning notices, appointing additional governors, withdrawing a governing body's financial and HR powers, and dismissing a governing body, replacing it with an interim executive board (IEB).

4 Ofsted outcomes, 2015 to present

4.1 In this section, Ofsted outcomes by phase - pre-school, primary, secondary and special - are set out, comparing the percentage of settings and schools rated good or

better up to the end of November 2017 with the same percentage at the end of the school year 2015. The latest Ofsted rating of each school is included in the attachment to this report (see tabs 1-3 of the spreadsheet the file name of which is school Ofsted update ACE 12-12-17.

- 4.2 The tables show, respectively, Ofsted outcomes by sector and school name (alphabetic); by maintained / academy school; and finally summarised by sector and school status. It is important to split academy and maintained school categorisation, as while academy schools in the area educate primarily or wholly Reading pupils, the local authority has no powers of intervention. These lie with the DfE and its regional schools commissioner. Therefore, in paragraphs 4.5 and 4.6, and table 3, the Ofsted ratings of maintained and academy schools set out separately and compared.
- 4.3 The table below lists the schools in the Reading borough council area that have been inspected this terms to date, with the previous inspection result and the most recent result where published (NP in the final column indicates the report has not been published.

PRE-SCHOOL SETTINGS

4.3 Ofsted ratings of early years setting in Reading are strong, as is expected given the good performance of children in the early years foundation stage. However, settings elsewhere, in the south east and nationally, have improved at a more rapid rate, hence the fall in ranking. It should be noted that all nursery schools are now outstanding.

Table 2: percentage of early years settings rated as good or better

Reading	south east	Reading rank (/19)	Reading quartile	England	Reading rank (/152)	Reading quartile
---------	---------------	--------------------------	---------------------	---------	---------------------------	---------------------

2017 (November)	93.7%	94.3%	15	4	92.8%	65	2
2015 (August)	87.9%	87.3%	8	2	85.0%	32	1
2015 - 2016 difference	5.8%	7.0%	-7	-2	7.8%	-33	-1

PRIMARY SCHOOLS

- 4.4 The performance of Reading schools in their latest Ofsted inspections has improved strongly between 2015 and 2017 (see table 3 below). However, the percentage of schools rated good or better is slightly higher nationally. The inspection outcomes of the primary schools for which Reading LA is accountable (maintained schools) is set out in paragraphs 4.5 to 4.6 and table 4.
- 4.5 There has been a comparatively large number of inspections in the term to date, but only one the first inspection of an academy school has affected the overall good or better percentage, as the schools gradings remained the same in the two reports that have been published.

Table 3: percentage of primary schools rated as good or better

	Reading	south east	Reading rank (/21)	Reading quartile	England	Reading rank (/152)	Reading quartile
2017 (November)	89%	91%	12	3	91%	109	3
2015 (August)	73%	82%	21	4	84%	141	4
2015 - 2017 difference	16	9	9	1	7	32	1

- 4.5 Table 4 below shows the number of maintained schools and academies by each Ofsted grading, using the most recent data available. The headlines are:
 - maintained schools overall are have improved strongly in terms of the percentage graded good or better - 93 per cent compared with 89.8 per cent nationally - which is 51st out of 152 top tier LAs nationally (second quartile);
 - seven academy schools out of nine have now been inspected RI judgements reflect schools that are 'sponsor-led' - three of the seven have been judged RI, but the percentage of academy schools rated as good or better has improved from 50 per cent to 57 per cent; and
 - overall, Reading primary schools are close but not quite at the national average.

Table 4: maintained and academy schools - Ofsted grades as at November 2017
Primary

	number	percent	number	percent	number	percent	per cent
outstanding	4	14%	3	43%	7	20%	19%
good	24	79%	1	14%	25	69%	72%

totals	30	100%	7	100%	36	100%	100%
good or better no/percentage	28	93%		57%		89%	91%

- 4.6 The improvement made over the last two years as measured by the percentage of Reading primary schools judged to be good or better is significant from 73 to almost nine out of 10 schools. The challenges now are to:
 - support the good maintained schools that are vulnerable a judgement of RI or worse so that they at stay at 'good';
 - support the remaining RI maintained school to progress well through its section 8 Ofsted inspection to become good at its next (section 5) (full) inspection;
 - assist the RSC to ensure the primary school in special measures is matched with a strong sponsor; and
 - support and challenge the RSC to support, challenge and intervene where necessary.

SECONDARY SCHOOLS

4.7 Far fewer secondary schools are now rated 'good' or better than was the case two years ago. Reading's academy schools are only 63 per cent good or better. Reading LA's single maintained school is good. LA officers have discussed with the RSC what action is being taken with regard to academies that are not yet good, or are vulnerable at their next inspection to being graded as less than good. The RSC has responded positively, setting out plans for weaker academies to become part of a multi-academy trust.

Table 5: percentage of secondary schools rated as good or better

SPECIAL SCHOOLS

4.8 Special schools have all been rated at least good though the period (see table 5, below), and are first ranked (along with many LAs). However, it should be noted that Reading's only alternative provision (Cranbury college) was graded RI in its last inspection.

Table 6: percentage of special schools rated as good or better

SCHOOL CATEGORISATION

4.9 The local authority has identified 13 schools as system leaders, 28 as developing capacity, two as requiring support and 8 as schools causing concern.

Table 7: school categorisations by sector

5 Contribution to strategic aims

5.1 This report describes progress towards achieving Reading Borough Council's strategic objectives: 'to establish Reading as a Learning city'; to be 'a stimulating and rewarding place to live' and to 'provide the best start in life through education, early help and healthy living'.

6 Community engagement and information

6.1 This report does not impact on community engagement and information.

7 Equality impact assessment

7.1 None required in relation to this report.

8 Legal implications

8.1 There are no legal implications contained within this report.

9 Financial implications

9.1 There are no financial implications based on this report.
