

## Health and Wellbeing Board

### Workshop 12 April 2013 Outcomes

The multi agency workshop gave the opportunity to explore a partnership approach to shaping what delivery might look like for the objectives within the strategy. In groups attendees identify potential high impact and high influence items which could contribute to the delivery of the strategy vision and goals. A number of high impact and high influence items were examine in more detail and the outcomes are captured below.

#### Main themes

Possible Initiative: Better partnership approach to domestic violence.

Aim: Provide a joined up approach to tackling domestic violence and its impacts.

Desired Outcome: Improved responses to domestic violence.

Action required: Identify lead organisation. Review what is available. Develop a new model.

Possible Initiative: New Entrant Service, one stop shop to get health information.

Aim: Provide, good quality information (targeted, timely, and updated) delivered across all sectors that is consistent.

Desired Outcome: Stakeholders and patients better informed.

Action required: Identify lead organisation. Review what is available at present. Develop an operating model and financial plan.

Possible Initiative: Introduce and develop health trainers within the community.

Aim: Develop health trainer programme to support local people achieve and maintain a healthy lifestyle.

Desired Outcome: Local people have a healthier lifestyle.

Action required: Review success of health trainers schemes. Identify lead organisation. Develop a business case and identify funding streams.

Possible Initiative: Single point of contact for primary care for early help.

Aim: Offer GP's a single point of contact for referring patients to early year's services.

Desired Outcome: Easy access to early year's support.

Action required: Develop proposal and generate interest. Identify GP practice to run a pilot project.

A number of other potential high impact and high influence items were identified at the workshop but were not examined in more detail, those are captured below and could be explored further either through a workshop or partnership setting.

**Other themes**
