

READING HEALTH AND WELLBEING BOARD

DATE OF MEETING:	16 March 2018	AGENDA ITEM:	7
REPORT TITLE:	Health and Wellbeing Dashboard - MARCH 2018		
REPORT AUTHOR:	Kim McCall	TEL:	0118 9373245
JOB TITLE:	Health and Wellbeing Intelligence Officer	E-MAIL:	kim.mccall@reading.gov.uk
ORGANISATION:	Reading Borough Council		

1. PURPOSE OF REPORT AND EXECUTIVE SUMMARY

- 1.1 The Health and Wellbeing Dashboard is intended to keep Board members informed of local trends in priority areas identified in the Health and Wellbeing Strategy. The broad format has previously been agreed by the Board.
- 1.2 Appendix A - Health and Wellbeing Dashboard - March 2018

2. RECOMMENDED ACTION

2.1 That the Health and Wellbeing Board notes the following updates to the indicators and targets which are included in the Health and Wellbeing dashboard:

- Targets for smoking prevalence and smoking prevalence in those working in routine and manual professions have been finalised.
- Indicators for Priority 5 (Living well with dementia) have now been finalised.

2.2 That the Health and Wellbeing Board notes the following performance updates contained in the dashboard:

- % of 4-5 year olds and % of 10-11 year olds classified as overweight or obese have been updated since the last report (Priority 1)
- Rate of alcohol-related hospital admissions has been updated since the last report (Priority 3)
- Breast and bowel cancer screening coverage have been updated since the last report (Priority 6)
- No. of Dementia Friends (local indicator) (Priority 5) has been updated.
- Health checks indicators updated with Q2 performance
- Alcohol treatment completion updated with Q3 performance

That the Health and Wellbeing Board notes the following areas where performance is worse than set target:

2.3 Priority 1

2.06ii - % 4-5 year olds classified as overweight/obese

A slight increase has put Reading slightly above target and above the percentage recorded last year. This follows three years of slight reductions and, statistically, may be the result of chance rather than a 'real' trend.

Overweight and obesity has fallen significantly in older primary aged children this year. Performance against both indicators will be monitored to determine whether these represent real trends.

2.14 - Smoking prevalence - all adults

Smoking prevalence in all adults is going down gradually and in 2016 15.8% of the population were current smokers, similar to the England average of 15.5%. A target has been set locally of a 1% reduction. However, this represents what would be needed annually to meet the national target set in the England Tobacco Control Plan of 12% or less by 2022. Although performance (2016) is currently rated red, the target reduction of 1% is expected by 2017.

2.14 - Smoking prevalence - all adults - routine and manual professions

Smoking amongst people working in routine and manual professions in Reading increased from 26.7% to 30.4% in the last year and is higher than the England and similar LA averages. While the relatively small population makes it difficult to detect a statistical difference from the England average, Reading has seen a slight increase year-on-year, while the England average has decreased. A 2% annual reduction is needed to eliminate the inequality in smoking prevalence between this group and the whole population.

2.22 - Health check indicators.

Reading will not meet local or national targets for proportion of the population who are eligible for a health check (aged 40-74) to be invited for a health check by the end of 2017/18. Low performance against this indicator has had implications for the other two health check indicators. Other pressures within local service provision have had an impact on this performance.

Priority 2

1.18 - Adult Social Care users with as much social contact as they would like AND Carers with as much social contact as they would like.

Targets for these indicators were set based on previous performance (for carers) and, where Reading's performance was below national average, previous England average (Adult Social Care (ASC) users). The proportion of ASC users in Reading reporting enough social contact has improved over the last two years, while the national average has stayed the same. The proportion in Reading is now only very slightly below national average (45.2 vs 45.4) and the local target (also 45.4). Similarly, for carers in Reading, the proportion reporting enough social contact has remained the same, while the national average has fallen. Consequently, carers in Reading are now more likely to report enough social contact than nationally. Although targets have not yet been met, performance has improved and is in line or better than the national average.

Priority 3

2.18 - Admission episodes for alcohol related conditions

Alcohol-related hospital admissions, for many years much better than average, have been increasing gradually and are now in line with national average.

Priority 8

4.10- Mortality rate from suicide and injury of undetermined intent

The rate in Reading fell from 11 per 100,000 in 2013-15 (44 people) to 9.9 per 100,000 in 2014-16 (40 people). This is in line with the England average and slightly lower than similar LAs but did not meet the local target set by stakeholders.

2.4 That the Health and Wellbeing Board notes that updates are expected to be available for the July meeting of the Board in relation to the following indicators (all dates are provisional)

- Dementia friends (Priority 5) - local indicator updated each quarter
- Health checks indicators Q4 updates expected June 2018
- Alcohol treatment completion Q4 updates expected May 2018
- Indicators for Priority 4 (Promoting Positive Mental Health and Wellbeing in Children and Young People).

3. POLICY CONTEXT

- 3.1 The final version of Reading's Health and Wellbeing Strategy was approved by the Health and Wellbeing Board on 27th January 2017 and an action plan based on the eight strategic priorities has been developed and sets out in detail how the priorities will be met.
- 3.2 In July 2016, Reading's Health and Wellbeing Board agreed to introduce a regular Health and Wellbeing Dashboard report to ensure that members of the board are kept informed about the Partnership's performance in its priority areas, compared to the national average and other similar local authority areas.

4. THE PROPOSAL

- 4.1 **Current Position:** The current Health and Wellbeing Dashboard has been developed in consultation with Health and Wellbeing Strategy Priority/Action Plan Leads. The dashboard will be presented to the board on a quarterly basis. Board members are presented with the full dashboard at each meeting in order to facilitate a review of performance against selected indicators and targets. Information about which indicators have been updated since the previous report will be included within the dashboard and highlighted in the covering report.

5. CONTRIBUTION TO READING'S HEALTH AND WELLBEING STRATEGIC AIMS

- 5.1 This proposal supports Corporate Plan priorities by ensuring that Health and Wellbeing Board members are kept informed of performance and progress against key indicators, including those that support corporate strategies.

6. COMMUNITY & STAKEHOLDER ENGAGEMENT

- 6.1 A wide range of voluntary and public sector partners and members of the public were encouraged to participate in the development of the Health and Wellbeing Strategy and, as described above, a draft of the proposed Strategy was made available for consultation between 10th October and 11th December 2016. The indicators included in this report reflect those areas highlighted during the development of the strategy and included in the final version.

7. EQUALITY IMPACT ASSESSMENT

- 7.1 An Equality Impact Assessment is not required in relation to the specific proposal to present the dashboard in this format. However, it is anticipated that this will be one of the tools which Board members can use to monitor the success of the Health and Wellbeing strategy as a vehicle for tackling inequalities.

8. LEGAL IMPLICATIONS

- 8.1 There are no legal implications.

9. FINANCIAL IMPLICATIONS

- 9.1 The proposal to note the report in Appendix A offers value for money by ensuring that Board members are better able to determine how effort and resources are most likely to be invested beneficially in advance of the full Health and Wellbeing Dashboard.

10. BACKGROUND PAPERS

- 10.1 Minutes of the Health and Wellbeing Board 27th January 2017 - <http://www.reading.gov.uk/article/9641/Health-and-Wellbeing-Board-27-JAN-2017>
- 10.2 Reading Borough Council (2017) *Reading's Health and Wellbeing Strategy*
- 10.3 Minutes of the Health and Wellbeing Board 15th July 2016 - <http://www.reading.gov.uk/article/9585/Health-and-Wellbeing-Board-15-JUL-2016>
- 10.4 Health and Wellbeing Board Performance Update - February 2017
- 10.5 Minutes of the Health and Wellbeing Board 19th January 2018 - <http://www.reading.gov.uk/article/10603/Health--Wellbeing-Board-19-JAN-2018>

APPENDIX A - Health and Wellbeing dashboard March 2018

Priority	Indicator	Target Met/Not Met	Direction of Travel
1. Supporting people to make healthy lifestyle choices	2.12 Excess weight in adults	Met	Better
	2.13i % of adults physically active	Met	Better
	2.06i % 4-5 year olds classified as overweight/obese	Not Met	Worse
	2.06ii % 10-11 year olds classified as overweight/obese	Met	Better
	2.03 Smoking status at the time of delivery	Met	Better
	2.14 Smoking prevalence - all adults - current smokers	Not Met	Better
	2.14 Smoking prevalence - routine and manual - current smokers	Not Met	Worse
	2.22iii Cumulative % of those aged 40-74 offered a healthcheck 2013-2018	Not Met	Worse
	2.22 iv Cumulative % of those offered a healthcheck who received a healthcheck 2013-2018	Not Met	No change
	2.22 v Cumulative % of those aged 40-74 who received a healthcheck 2013-2018	Not Met	No change
2. Reducing loneliness and social isolation	1.18i/11 % of adult social care users with as much social contact as they would like	Not Met	Better
	1.18ii/11 % of adult carers with as much social contact as they would like	Not Met	No change
	Placeholder - Loneliness and Social Isolation	NA	NA
3.Reducing the amount of alcohol people drink to safer levels	2.15iii Successful treatment of alcohol treatment	Met	Worse
	2.18 Admission episodes for alcohol related conditions (DSR per 100,000)	Not met	Worse
4.Promoting positive mental health and wellbeing in children and young people			
5.Living well with dementia	4.16/2.6i Estimated diagnosis rate for people with dementia	Met	No change
	No. Dementia Friends (Local Indicator)	Met	Better
	Placeholder - ASCOF measure of post-diagnosis care	NA	NA
6.Increasing take up of breast and bowel screening and prevention services	2.20iii Cancer screening coverage - bowel cancer	Met	No change
	2.20i Cancer screening coverage - breast cancer	Met	No change
7.Reducing the number of people with tuberculosis	3.05ii Incidence of TB (three year average)	Met	Better
8. Reducing deaths by suicide	4.10 Age-standardised mortality rate from suicide and injury of undetermined intent	Not met	Better

PRIORITY 1: Supporting people to make healthy lifestyle choices

Indicator Title	Framework	Source	Frequency updated	Good performance low/high	Most recent reporting period	Most recent performance	Target	Met/Not Met	DOT	England Average	2015 Deprivation Decile Average

Updates to the health and wellbeing dashboard

● Updates since last report

- Indicators and targets for Priority 4 (Promoting positive mental health and wellbeing for children and young people) have now been agreed with stakeholders and are included.
- Targets for smoking prevalence and smoking prevalence in those working in routine and manual professions have been finalised.
- Indicators for Priority 5 (Living well with dementia) have now been finalised.
- % of 4-5 year olds and % of 10-11 year olds classified as overweight or obese have been updated since the last report (Priority 1)
- Rate of alcohol-related hospital admissions has been updated since the last report (Priority 3)
- Breast and bowel cancer screening coverage have been updated since the last report (Priority 6)
- No. of Dementia Friends (local indicator) (Priority 5) has been updated.
- Health checks indicators updated with Q2 performance
- Alcohol treatment completion updated with Q3 performance

● Updates expected before July 2018 (dates are provisional)

- Update of the dementia diagnosis rate expected March 2018 (Priority 5)
- Dementia friends (Priority 5) - local indicator updated each quarter
- Health checks indicators Q4 updates expected June 2018
- Alcohol treatment completion Q4 updates expected May 2018

Indicator	Expected date of update	Local/Quarterly data available?
2.12 Excess weight in adults	November	No
2.13i % of adults physically active	Not clear. Last updated in September (Active Lives survey)	No
2.06i % 4-5 year olds classified as overweight/obese	January	No
2.06ii % 10-11 year olds classified as overweight/obese	January	No
2.03 Smoking status at the time of delivery	November	No
2.14 Smoking prevalence - all adults - current smokers	August	No
2.14 Smoking prevalence - routine and manual - current smokers	August	No
2.22iii Cumulative % of those aged 40-74 offered a healthcheck 2013/14 - 16/17	Quarterly	Updates are published quarterly
2.22 iv Cumulative % of those offered a healthcheck who received a healthcheck 2013/14 - 16/17	Quarterly	Updates are published quarterly
2.22 v Cumulative % of those aged 40-74 who received a healthcheck 2013/14 - 16/17	Quarterly	Updates are published quarterly
1.18i/11 % of adult social care users with as much social contact as they would like	November	Local data but collected annually
1.18ii/11 % of adult carers with as much social contact as they would like	Nov-19	Local data but collected bi-annually
Placeholder - Loneliness and Social Isolation		
2.15iii Successful treatment of alcohol treatment	Quarterly	Updates are published quarterly
2.18 Admission episodes for alcohol related conditions (DSR per 100,000)	May	No
4.16/2.6i Estimated diagnosis rate for people with dementia	Not clear. 31st March or August	No. (CCGs receive rates per practice and at CCG level, but not at LA level).
No. Dementia Friends (Local Indicator)	Quarterly	Yes
Placeholder - ASCOF measure of post-diagnosis care		
2.20iii Cancer screening coverage - bowel cancer	February	No.
2.20i Cancer screening coverage - breast cancer	February	No.
3.05ii Incidence of TB (three year average)	November	No.
4.10 Age-standardised mortality rate from suicide and injury of undetermined intent	November	No.
