# Engaging with Communities

# Resilience and Social Cohesion

## **is knowledgeable and healthy.**

Its members know how to stay healthy and are prepared for shocks. They learn and build on past experiences.

**is organised.** It has groups and leaders that can bring community members together, identify problems and act to resolve them. Community members are willing to work cooperatively and help each other.

**is connected.** It has relationships with central or external organisations and individuals that can provide help and support.

**has infrastructure and services.** It has access to physical assets or external services that enable people to meet their basic needs of food and water, shelter and health.

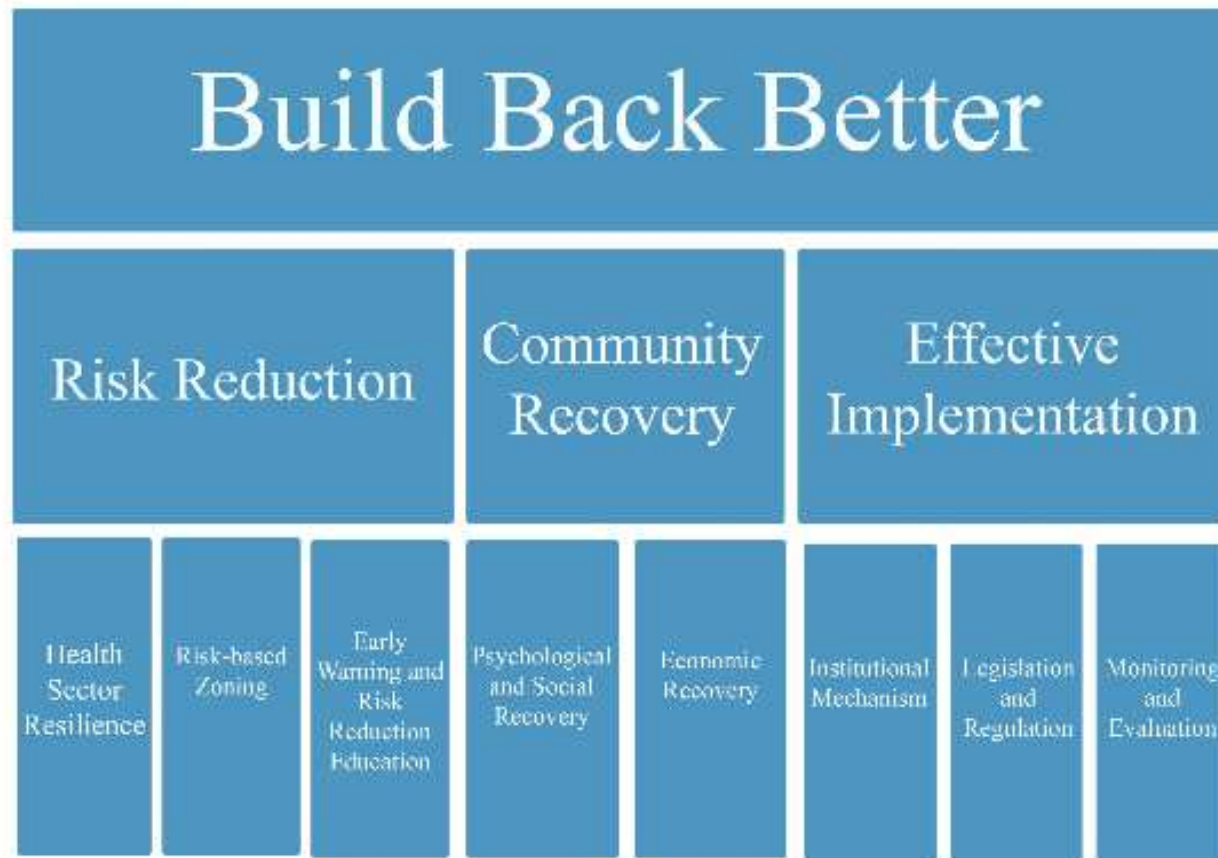

## **has economic opportunities.**

It has a diverse range of employment opportunities and a flexible workforce that can adapt to uncertainty.
