

Berkshire West Joint Health and Wellbeing Strategy Public Engagement plan

Introduction

In 2019, the Chairs of the Health and Wellbeing Boards for Reading, West Berkshire and Wokingham decided to come together to produce a Joint Health and Wellbeing Strategy for Berkshire West. It was agreed that public engagement and consultation would be key to the process of developing the final priorities to be included in the strategy.

Aim

The aim of this public engagement is to actively listen to people's views and to work in partnership with the public to discuss and find consensus on the final priorities for inclusion in the Berkshire West Joint Health and Wellbeing strategy. The Group strongly believes in sharing to reduce duplication. Input will be obtained via a series of focus groups and events to provide a platform for the public to share their views and respond to draft priorities, before reaching consensus.

Goals

Following the engagement and once input has been collected from the public and consensus reached, the final Health & Wellbeing Strategy will be in place for 5-10 years. The goal is to support the community to drive a robust programme of health and well-being priorities and a realistic Covid-19 recovery process. The success of the final Strategy relies on commitment and input from the Local Authorities, CCGs and community members.

Methods

- Public facing webpage hosted by a variety of stakeholders including background information on the strategy and promoting the engagement events
- Generic inbox inviting comments
- Call to action to Chairs of voluntary organisations and an invitation to engage
- Online public survey: to be promoted by all stakeholders using all methods of dissemination
- Social media to create a Facebook and Twitter pages for the strategy (as well as considering other social media) and to use to promote public events. To consider sponsored posts with targeted advertising such as eliciting feedback via local press, radio and possibly television.
- Specific focus group events for Town and Parish councils' representatives
- Engaging with children and young people
 - Peer mentoring networks

- Engagement with Youth Councils across Reading, West Berkshire and Wokingham (where active)
- Young carers across Berkshire West
- Children in care
- Virtual engagement sessions for staff members at each of the three local authorities and CCG (Aiming for 1 per organisation)
- Virtual public engagement focus groups (Healthwatch) 2 per local authority
- To join existing focus groups for community organisations
- Virtual Public meetings open to everyone

In order to support the public engagement through focus groups and other face to face sessions, we have developed a background narrative to each priority. This enables consistent discussions to be had and ensures that the engagement is robust.

Partners and Roles

A Consultation & Engagement Task and Finish Group has been established to help develop and deliver robust consultation and engagement around the development of the new Joint Health and Well-being Strategy for Berkshire West. The membership of the group spans across the 3 local authority areas, Healthwatch, Voluntary Sector Umbrella organisations as well representatives from local communities, in particular diverse ethnic communities and those who traditionally are marginalised in these types of engagement.

We would like to formally acknowledge the help, support and hard work undertaken by the Task and Finish Group in co-producing the consultation and engagement work within this programme. This has been rich, robust and inclusive.

Partner	Role in public engagement
Programme lead and programme manager for the JHWBS	Establish a Consultation and Engagement Task and Finish (T&F) Group with representatives from across the 3 LAs. Co-chair, facilitate and support the T&F Group to co-produce and deliver a robust and inclusive programme of engagement and consultation. Overall co-ordination of the programme of engagement and consultation. Development of the engagement plan. Formulation of survey questions (co-produced with other stakeholders) and development of the overall survey. Facilitation of virtual engagement events. Production of background information pack on potential priorities to aid engagement events.
Local Authority Comms teams	Update local authority websites (public and staff facing) with details of the strategy development. Promotion of virtual public engagement events. Promotion of public survey.

	Promotion of staff events. Press releases to media to promote strategy and public engagement.
Healthwatch	Hosting information about the strategy on public facing website. Running of public engagement events (2 per local authority), focusing on harder to reach communities. Promotion of online survey.
Voluntary sector	Support the Call to action of voluntary sector organisations to engage with the public consultation. Hosting of JHWS development webpage with opportunities to collate comments and feedback. Dissemination of public survey via existing networks.
Local Authority engagement leads	Ensure that all 3 LA engagement leads support and drive the programme and have information to share around engagement and consultation Identify existing communication channels and ways to engage residents – particularly, hard to reach groups.
Community United	Dissemination of public survey and promotion of public events through networks Identify Specific focus groups within community and engage to facilitate their views on the draft priorities and survey
Community Engagement Champions	Disseminate public survey among networks Raise awareness of public events and encourage communities to attend
CCG engagement leads	Dissemination of public survey and promotion of public events through networks.
Community Support hubs	Dissemination of public survey and promotion of public events through networks.

	Virtual Staff event Reading (TBC)	Sarah/Chris

Engagement Toolkit

An engagement toolkit has been developed to support the public engagement and to facilitate the possibility of organisations running their own discussions or focus groups with their members. This consists of the following documents

- Facilitators guide to the potential priorities
- Public guide to the potential priorities
- Feedback template

Evaluation of the engagement

Qualitative and quantitative data will be collected throughout the engagement process.

Interpretation will include analysing, comparing and contrasting themes and patterns as well as the production of key themes and trends
