Impact of Covid - Resource Request: NHS Health Checks

| Directorate: | DACHS |
|---------------------|---|
| Name of Initiative: | Relaunch & expand NHS Health Checks Programme |

Please complete all sections in full

1. Overview of Initiative

| Service Area | Lead Officer | Timescales | Context & Rationale (include current position and reasoning (why now) |
|---------------|----------------|--------------------------------|---|
| Public Health | Chris Stannard | Q2 2021/2022 - Q1 2022/2023 | The NHS Health Check provides a "health MOT" to all adults in Reading (aged 40 - 74, not on a disease register) by checking for early signs of stroke, kidney disease, heart disease, type 2 diabetes or dementia and provide advice on reducing the risks. |
| | | | The programme which is delivered by general practice, was largely paused last year due to COVID-19, as was the case in many other parts of the country. |
| | | | There is now strong evidence from <u>A recent large-scale national study</u> which clearly shows that cardiovascular disease and COVID 19 are interconnected. There is also other evidence that shows both CVD and COVID-19 disproportionately affect the most deprived communities. |
| | | | Therefore prevention programmes which target CVD risk factors such as the NHS Health Check programme are more critical than ever in not only detecting and treating CVD risk and reducing health inequalities, but also mitigating against the severity of consequences from COVID-19. |
| | | | This is therefore an ideal opportunity to relaunch the programme in Reading, with a greater focus on people living in the most deprived communities, including those from some ethnic minority groups. |
| | | | The outcome of this would be to reduce the longer-term health impacts of the pandemic on Reading's residents. |

| DACHS | Lauren Rocha | at | | 1 st July 2021 - 31st March 2022 | also has implications for | an area of potential high cost for the RBC and r the residents who may be legally entitled to I to LA funding with possible financial a financial assessment. | |
| | | | | | Recently, 13 historic CHC dispute cases were reviewed with a CCG Le Officer - however none were deemed eligible for full CHC funding, which was attributed to practitioners lacking understanding of the CH framework & failing to submit the required evidence. | | |
| | | | | | This money would fund a dedicated CHC Lead who would (a) develop positive relationships with our CCG colleagues so that we are working together in the best interest of the patient/resident; (b) support practitioners to gather evidence and present cases to the CHC panel; and (c) clear the backlog of cases requiring review that may indeed be eligible for CHC funding, which in turn would support the delivery of the DACHS savings targets in 2021/2022. | | |

Impact of Covid - Resource Request: Quality Assurance

| Directorate: | DACHS |
|---------------------|---------------------------------|
| Name of Initiative: | Commissioning Quality Assurance |

Please complete all sections in full

1. Overview of Initiative

| yndsey Store | | | | Context & Rationale (include current position and reasoning (why now) | | | | |
|--|---------------------|---|--|---|--|--|--|--|
| | 2 y | | Q3 - Q4 21/22 (October 21 - March 22) | The Commissioning Team are currently being asked to respond to a ver high level of quality concerns (many of which have arisen as a result of implications from Covid-19) and lack capacity to respond swiftly to all the concerns. As such, this funding would increase capacity within the Commissioning Team with a view to ensuring that (a) these concerns ca be responded to rapidly, and (b) the quality assurance function can shi back to a preventative model rather than reactive model with the financial year 21/22, while sustainable longer-term arrangements are made for embedding this approach to quality assurance. | | | | |
