

Vaccination Programme Update

Reading Health and Wellbeing Board

15th July 2022

Belinda Seston

Interim Director of Place Partnerships Berkshire West

Buckinghamshire, Oxfordshire and Berkshire West Integrated Care Board

Spring Booster Programme

- Joint Committee on Vaccination and Immunisation (JCVI) advised an extra spring dose as a precautionary measure.
- The Spring Booster offered to those:
 - aged 75 years and over
 - in older people's care homes
 - aged 12 years and over with a weakened immune system
- Programme period 21 March 2022 to 30 June 2022.
- After 30 June Spring Booster still available to:
 - aged 75 years and over up to 30 June 2022
 - in older people's care homes up to 30 June 2022
 - aged 12 years and over with a weakened immune system

- 100% of care homes visited.
- National data systems do not clearly identify Spring Booster take up amongst the immunosuppressed (being their 5th dose as opposed to the 4th dose for all other people).
- A local search identified 42% Spring Booster take-up amongst the immunosuppressed in Berkshire West.
- A national letter was published on 13 June, setting out steps for primary care networks and secondary care clinicians to ensure that all immunosuppressed people are identified and offered a booster during the Spring Campaign. Primary care clinicians were asked identify and invite eligible immunosuppressed individuals for Spring Boosters by 27 June.

Vaccination of 5-11s

The JCVI recommended that Covid-19 vaccinations should be offered to all healthy 5-11-year-olds on a ‘non-urgent’ basis.

Autumn Planning

- Expected vaccine offer to:
 - residents in a care home for older adults and staff
 - frontline health and social care workers
 - all those 65 years of age and over
 - adults aged 16 to 64 years who are in a clinical risk group
- Important elements:
 - Co-administration with other vaccines where possible
 - Planning to deal with any surges
 - Create opportunities to improve population health where possible, e.g. health promotion advice
- Key deadlines:
 - Primary Care Networks and Community Pharmacies to decide whether to participate in Autumn programme by mid-July
 - System plans to be submitted by the end of July
