

Upper Redlands Road New Waiting and Parking Restrictions Statutory Consultation April 24

Total of 2 responses

Objections: 2

Do you support or object to the proposal?	Comments
Object	Noting the removal of a speed cushion, I can only object as it will allow even more speeding thus negating the point of this to improve pedestrian safety. The recent car overturning while speeding the wrong way down De Beauvoir Rd is another example of how the only way to improve safety is measures to slow vehicles down in East Reading.
Object	Irrelevant. You've lost control of road rules in Reading, e.g. speeding, legal vehicles, drug driving, disregard for one way streets, so whatever you put in will be ignored and no rules are enforced or policed effectively. Best save the money for things like fly-tipping enforcement and a connected safe cycle route.
