

Project / Proposal Name or Reference:

Date:

Your Name:

<i>Reading Museum - Access Policy and Roman project</i>	18-Sep-24	Matthew Williams
---------------------------------------------------------	-----------	------------------

1. IMPACT ON CARBON EMISSIONS

HOW WILL THIS PROJECT/PROPOSAL AFFECT:	CONSIDERATIONS <i>See guidance below on determining whether negative or positive impacts are High, Medium or Low</i>	IMPACT? <i>Use drop down list</i>	GUIDANCE IF NEGATIVE/NIL RATING HAS BEEN AWARDED	SUMMARISE HOW YOU PLAN TO MANAGE AND REDUCE ANY NEGATIVE IMPACTS
1 ENERGY USE	<ul style="list-style-type: none"> * More energy will be consumed or emissions generated (by RBC or others) = Negative Impact * No extra energy use is involved or any additional energy use will be met from renewable sources = Nil Impact * Energy use will be reduced or renewable energy sources will replace existing fossil fuel energy = Positive Impact 	Low Positive	Consider: <ul style="list-style-type: none"> ▫ Energy efficiency measures ▫ Renewable energy ▫ Reducing demand for energy 	The proposed new Roman gallery will be more energy efficient than the current Silchester Gallery
2 WASTE GENERATION	<ul style="list-style-type: none"> * More waste will be generated (by RBC or others) = Negative Impact * No waste will be generated = Nil Impact * Less waste will be generated OR amount of waste that is reused/ recycled will be increased = Positive Impact 	Low Negative	Consider: <ul style="list-style-type: none"> ▫ Re-usable/recycled goods ▫ Recycling facilities ▫ Reducing/reusing resources 	It is not envisaged that, as a result of this proposal that the service will generate more any waste and may generate less through less use of paper resources. Existing gallery fittings will be re-used where possible, though some obsolete display and lighting fittings will not be capable of re-use but will be recycled where possible to keep waste to a minimum
3 USE OF TRANSPORT	<ul style="list-style-type: none"> * RBC or others will need to travel more OR transport goods/people more often/further = Negative Impact * No extra transport will be necessary = Nil Impact * The need to travel, the use of transport and/or of fossil fuel-based transport will be reduced = Positive Impact 	Low Positive	Consider: <ul style="list-style-type: none"> ▫ Use of public transport ▫ Reducing need to travel or transport goods ▫ Alternative fuels/electric vehicles/walking and cycling 	The proposed Roman project will work with public and active transport partners to promote travel by train, bus, cycling and walking to the museum and Silchester site

2. IMPACT ON RESILIENCE TO THE EFFECTS OF CLIMATE CHANGE

HOW WILL THIS PROJECT/PROPOSAL AFFECT THE ABILITY OF READING TO WITHSTAND:	CONSIDERATIONS <i>See guidance below on determining whether negative or positive impacts are High, Medium or Low</i>	IMPACT? <i>Use drop down list</i>	GUIDANCE IF NEGATIVE/NIL RATING HAS BEEN AWARDED	SUMMARISE HOW YOU PLAN TO MANAGE AND REDUCE ANY NEGATIVE IMPACTS
4 HEATWAVES	<ul style="list-style-type: none"> * Increased exposure of vulnerable people and/or infrastructure to heat stress = Negative Impact * No increase in exposure to heat stress = Nil Impact * Reduced exposure of vulnerable people and/or infrastructure to heat stress = Positive Impact 	Nil	Greater need for cooling, ventilation, shading and hydration methods	N/A
5 DROUGHT	<ul style="list-style-type: none"> * Water use will increase and/or no provision made for water management = Negative Impact * Levels of water use will not be changed = Nil Impact * Provision made for water management, water resources will be protected = Positive Impact 	Nil	Greater need for water management and perhaps reserve supplies	N/A

6	FLOODING	<ul style="list-style-type: none"> * Levels of surface water run-off will increase, no management of flood risk = Negative Impact * Levels of surface water run-off & flood risk are not affected = Nil Impact * Sustainable drainage measures incorporated, positive steps to reduce & manage flood risk = Positive Impact 	Nil	Consider flood defence mechanisms or alternative arrangements (business continuity)	N/A
7	HIGH WINDS / STORMS	<ul style="list-style-type: none"> * Exposure to higher wind speeds is increased or is not managed = Negative Impact * No change to existing level of exposure to higher wind speeds = Nil Impact * Exposure to higher wind speeds is being actively managed & reduced = Positive Impact 	Nil	Greater need for stabilisation measures, robust structures resilient to high winds	N/A
8	DISRUPTION TO SUPPLY CHAINS	<ul style="list-style-type: none"> * Exposure to supply chain disruption for key goods and services is increased = Negative Impact * No change in exposure to supply chain disruption for key goods and services = Nil Impact * Exposure to supply chain disruption for key goods and services is reduced = Positive Impact 	Nil	Source key goods and services locally as it reduces exposure to supply chain disruption and boosts the local economy	N/A

Weighing up the negative and positive impacts of your project, what is the overall rating you are assigning to your project?:

Net Low Positive

This overall rating is what you need to include in your report/ budget proposal, together with your explanation given below.

Guidance on Assessing the Degree of Negative and Positive Impacts:

Note: Not all of the considerations/ criteria listed below will necessarily be relevant to your project

Low Impact (L)	* No publicity
	* Relevant risks to the Council or community are Low or none
	* No impact on service or corporate performance
	* No impact on capital assets; or relates to minor capital assets (minor works)
Medium Impact (M)	* Local publicity (good or bad)
	* Relevant risks to the Council or community are Medium
	* Affects delivery of corporate commitments
	* Affects service performance (e.g.: energy use; waste generation, transport use) by more than c.10%
	* Relates to medium-sized capital assets (individual buildings or small projects)
High Impact (H)	* National publicity (good or bad)
	* Relevant risks to the Council or community are Significant or High
	* Affects delivery of regulatory commitments
	* Affects corporate performance (e.g.: energy; waste; transport use) by more than c.10%
	* Relates to major capital assets (larger buildings and infrastructure projects)

In the box below please summarise any relevant policy context, explain how the overall rating has been derived, highlight significant impacts (positive and negative) and explain actions being taken to mitigate negatives and increase positives. This text can be replicated in the 'Environment and Climate Impacts' section of your Committee Report, though please note you may need to supplement this climate

There is a net low positive environmental and climate impact arising from this report. The Roman Britain reimagined in Reading project secures delivery phase funding it will include measures to reduce the museum's environmental impact such as encouraging staff, volunteers and visitors to use active travel or public transport to visit the museum and Silchester Roman site, and use low energy technology, such as LED lighting, to reduce the energy consumption and the carbon footprint of the Roman gallery.
