

READING HEALTH AND WELLBEING BOARD

DATE OF MEETING:	11 OCTOBER 2019	AGENDA ITEM:	12
REPORT TITLE:	INTEGRATION PROGRAMME UPDATE		
REPORT AUTHOR:	LEWIS WILLING	TEL:	01189 372477
JOB TITLE:	INTEGRATION PROJECT MANAGER	E-MAIL:	LEWIS.WILLING@READING.GOV.UK
ORGANISATION:	READING BOROUGH COUNCIL / BERKSHIRE WEST CCG		

1. PURPOSE OF REPORT AND EXECUTIVE SUMMARY

1.1 The purpose of this report is to provide an update on the Integration Programme - notably, progress made within the Programme itself, as well as performance against the national BCF targets for the entirety of financial year 2018/2019.

1.2 Of the 4 national BCF targets:

- Performance against one (limiting the number of new residential placements) is strong, with the target for the financial year met & exceeded.
- We have not met our target for reducing the number of non-elective admissions (NELs), but work against this goal remains a focus for the Berkshire West-wide BCF schemes and a paper has been written exploring trends within the NELS data & making recommendations for driving reductions in NELS.
- We have met our target DTOC for almost 50% of the financial year, with incredibly strong reductions in the number of social care delays compared to performance in previous years. Initiatives are in place that it is believed will continue to drive further reductions in DTOC rates across the financial year 2019/2020.
- Progress against our target for increasing the effectiveness of reablement services remains in line with the decreased performance discussed at January's HWB, but this is due to revised guidance around the methods of measuring their impact and does not reflect a drop in actual performance (see section 4.9 - 4.11 for further detail) and further activities are planned to align our reablement offer with emerging national best practice.

2. RECOMMENDED ACTION

2.1 The Health and Wellbeing Board are asked to note the general progress to date.

3. POLICY CONTEXT

- 3.1 The Better Care Fund (BCF) is the biggest ever financial incentive for the integration of health and social care. It requires Clinical Commissioning Groups (CCG) and Local Authorities to pool budgets and to agree an integrated spending plan for how they will use their BCF allocation to promote / deliver on integration ambitions.
- 3.2 As in previous years, the BCF has a particular focus on initiatives aimed at reducing the level of avoidable hospital stays and delayed transfers of care (DTOCs) as well a number of national conditions that partners must adhere to (including reducing the number of non-elective admissions to hospital; reducing admissions to residential accommodation; and increasing the volume of individuals remaining at home 91 days after receiving reablement services).

4. BCF PERFORMANCE UPDATE

DTOC

- 4.1 Our target for 2019/2020, we aspire to have no more than 419 bed days lost per month broken down as follows (as average monthly targets):

- Health attributable - no more than 211 bed days lost
- ASC attributable - no more than 175 bed days lost
- Both attributable - no more than 33 bed days lost

- 4.2 Our results across the last year to date are as follows:

- September 2018 = 403 (of which 183 Health, 127 ASC, 93 joint)
- October 2018 = 471 (of which 305 Health, 97 ASC, 69 joint)
- November 2018= 544 (of which 260 Health, 229 ASC, 55 joint)
- December 2018 = 657 (of which 282 Health, 306 ASC, 69 joint)
- January 2019 = 332 (of which 203 Health , 55 ASC, 74 joint)
- February 2019 = 560 (of which 456 Health, 95 ASC, 9 joint)
- March 2019 = 462 (of which 374 Health, 48 ASC, 40 joint)
- April 2019 = 224 (of which 160 Health, 29 ASC, 35 joint)
- May 2019 = 264 (of which 182 Health, 80 ASC, 2 joint)
- June 2019 = 467 (of which 205 Health, 246 ASC, 16 joint)
- July 2019 = 368 (of which 140 Health, 196 ASC, 32 joint)

- 4.3 Within each month (except December 2018 and June 2019), there has been a greater volume of Health delays.

4.4 In terms of our local schemes' impact on the DTOC rates:

- *Community Reablement Team (CRT)* - For this financial year, the service appears to have prevented 470 delayed days in hospital, assuming a cost of £400 per NHS bed/day, this would equate to a cost avoidance of £187,898.
- *Discharge to Assess (D2A)* -. For this financial year, the service appears to have prevented 267 delayed days in hospital, assuming a cost of £400 per NHS bed/day, this would equate to a cost avoidance of £106,840 .

4.5 We continue to proactively address DTOC performance by:

- Holding a weekly Directors' meeting - during which the ASC Directors from the 3x Berkshire West Local Authorities, the Director of Berkshire West CCGS, and senior managers from Berkshire Healthcare Foundation Trust and Royal Berkshire Hospital review and sign-off the weekly delays. Trends in delays are discussed and remedial actions agreed.
- Working with the Berkshire West 10 Delivery Group to implement the High Impact Model across the Berkshire West system. As part of this work, the integration leads for Berkshire West will undertake visits to key health & social care sites to review further activities that might help to drive further reductions in delay.

Residential Admissions

4.6 Our target is to have no more than 116 new residential admissions for older people.

4.7 So far for 2019/2020, a total of 34 new residential admissions have been made in this financial year. This level of performance tracks to show 82 new admissions for the financial year, which would indicate that the locality would meet the target.

4.8 In terms of our local schemes' impact on the rate of residential admissions:

- *CRT* - 76 clients were living at home prior to entering the service, and subsequently returned home rather than progressing to a residential or nursing placement upon leaving the service. The service could therefore be argued to have prevented 76 entrances into residential care. Taking the average cost of a residential / nursing placement, this could equate to full-year effect cost avoidances of around £362171
- *D2A* - 4 clients were living at home prior to entering the service, and subsequently returned home rather than progressing to a residential or nursing placement upon leaving the service. The service could therefore be argued to have prevented 4 entrances into residential care. Taking the average cost of a residential / nursing placement, this could equate to full-year effect cost avoidances of around £25268

Reablement

4.9 Our target is to maintain an average of 93% of people remaining at home 91 days after discharge reablement / rehabilitation services (having entered these services following a stay in hospital).

4.10 Based on our performance to date (within our CRT and D2A service), within the financial year 2019/2020 we have achieved an average of 85% of service users remaining at home 91 days after discharge from hospitals into our Community Reablement Service and Discharge to Assess service.

4.11 This is due to revised guidance being issued by NHS England. Previously, any clients who passed away following discharge from reablement services were not included in the count, as it was felt that clients with terminal conditions and/or severe ill health could not be reabled. However, NHS England have asked for these clients to be included in the count moving forward, which has decreased our performance accordingly. Please note that:

- Were the clients in question not included, performance would be on-target.
- Had the clients in question not been referred to reablement services, it is potentially likely that they would've remained in hospital and become DToCs, and could potentially have passed away in hospital. Therefore whilst their inclusion in the count has decreased performance against the national target, the practice that has caused this is arguably in the clients' best interest, and has played a significant role in avoiding higher DToC rates.
- Further actions to better-align our reablement offer with emerging national best practice are outlined in sections 5.1 below.

Non-Elective Admissions (NELs)

4.12 Our BCF target is to achieve a 0.97% reduction (expressed as 161 fewer admissions) against the number of NEL admissions seen in 2018/2019. This equates to a target of no more than 16480 NELs in 2019-2020 (or no more than 1373 per month).

4.13 Based on this financial year's performance data, so far, we have achieved a total of 4238 NELs. This equates to an increase of 1.88% compared to the target reduction of 0.97%.

4.14 However, in terms of the local versus national position on NELs, Berkshire West CCG are in the top 10 out of 211 CCGs for lowest numbers of NELs.

4.15 In terms of our local schemes' impact on the rate of NELs:

- *CRT* - by engaging with 51 "rapid referrals" (clients who are seen prior to hospital admission, hopefully negating the need for a non-elective admission), the service has potentially prevented up to 51 NELs¹.
- *D2A* - Have not received any appropriate referrals this financial year.

4.16 Further actions to improve NEL performance are detailed in section 5.1 below.

5. PROGRAMME UPDATE

5.1 Since April, the following items have been progressed:

- **Pilot of the Neighbourhood Care Planning Group**, a joint working initiative between Adult Social Care (ASC) and North/West and South Reading GP Alliances. The pilot brings together key professionals to provide a forum for multi-disciplinary discussion, risk assessment and comprehensive care planning. Six meetings have been held to date, with input from Adults Social Care, 6 voluntary sector organisations, 3 GP

¹ Please note that further analysis is required to determine how many of these clients were subsequently admitted to hospital, in order to calculate the exact impact the service has had on NELs.

surgeries, community matrons, community nurses, and community mental health team workers. Reading Integration Board have extended the pilot to 12 meetings.

- Following the findings of the **review of Reading Borough Council’s BCF-funded Community Reablement Team (CRT) service**, a project has launched this month, which seeks to align the team with emerging best practice.
- **Analysing NELs performance** and exploring further opportunities for driving performance improvements. The CCG have led on writing a paper summarising the findings of this review. This was discussed at Reading Integration Board meeting for sign-off. This has resulted in actions to look at potential changes in work practise and projects, which aim to drive reductions in Reading’s NELS performance.

6. NEXT STEPS

6.1 The planned next steps for September-November include:

- **Continuing the Neighbourhood Care Planning Group pilot** between Adult Social Care and the North/West and South GP Alliances (the last of the 12 multi-disciplinary team meetings comprising the pilot will take place in March 2020). The outcomes of this pilot will be shared at the Health and Wellbeing Board, once it is complete.
- Continue progressing approved recommendations relating to **aligning the Community Reablement Team with emerging best practice**.

7. CONTRIBUTION TO STRATEGIC AIMS

7.1 While the BCF does not in itself and in its entirety directly relate to the HWB’s strategic aims, Operating Guidance for the BCF published by NHS England states that: *The expectation is that HWBs will continue to oversee the strategic direction of the BCF and the delivery of better integrated care, as part of their statutory duty to encourage integrated working between commissioners [...] HWBs also have their own statutory duty to help commissioners provide integrated care that must be complied with.*

8. COMMUNITY & STAKEHOLDER ENGAGEMENT

- 8.1 Section 138 of the Local Government and Public Involvement in Health Act 2007 places a duty on local authorities to involve local representatives when carrying out "any of its functions" by providing information, consulting or "involving in another way".
- 8.2 In accordance with this duty, A Primary Care Network event was held on Tuesday 10th September. This ‘Designing our Neighbourhoods’ Event invited members from the Voluntary Sector, Berkshire Healthcare Foundation Trust, Berkshire West Clinical Commissioning Group, GP Surgeries and several Reading Borough Council teams. It was an opportunity to discuss the new Primary Care Networks, their geography and get feedback from the different groups about healthy neighbourhoods and how this goal could be achieved.

9. EQUALITY IMPACT ASSESSMENT

9.1 N/A - no new proposals or decisions recommended / requested

10. LEGAL IMPLICATIONS

10.1 N/A - no new proposals or decisions recommended / requested.

11. FINANCIAL IMPLICATIONS

11.1 The BCF application is currently being completed, and will be sent off to NHS England prior to the deadline, this process will secure the funding for 19/20.
