

Appendix1: Consultation Results A33 Bus Rapid Transit

Total responses: 4

Supports: 1

Objections: 3

Do you support/object to the proposal?	If you object to the proposal, please say why	Do you have any further comments?
Object	The buses dont use the buse lanes. I saw multiple times Reading buses entering into normal lanes instead of the bus lane	
Object	Waste of time, try fixing existing roads with the money.	
Object	To generate business in Reading, you need to treat car's better, no one wants to ride a bus most people are commuting Reading will lose business based on the poor decisions the council is making toward car drivers.	the bus lane change coming off the A329M has already cause carnage but hey lets ruin Reading some more.
Support		We need to make it easy for people to leave their cars and use public transport that works for them.
