Object	<p>The school street has pushed parents to park in the other half of Great Knollys street this has meant instead of a whole big street to park across and it being spaced out it's all be shunted to one end. This has resulted in absolute carnage and chaos at the unrestricted end with several incidents where children have nearly been knocked down and hurt by cars dangerously moving about as well as residents trying to park.</p> <p>Parents are parking on double yellow they are parking and blocking driveways. It's causing considerable congestion and traffic and the knock on effect is so detrimental for the whole area. Cars are being knocked (wing mirrors) as well as dangerous parking. This will result in children being hurt as the dangerous manoeuvres that school street was put in place to keep children safe and stop has simply just moved to the other end of the street and it's more dangerous as they have half the space to park and move in now.</p>
